RadicalRed, 2018

Foundation work is who WE are today. Red Sea Rising and RSR Trip Radio feel a strong sense of responsibility to help make our world a better place! The things we do below are to ALLOW us the privilege of giving back to our world through our advocacy of many charitable organizations in the United States and throughout the world. This company has been set up BY musicians for musicians and film artists. We founded on the premise that we have been blessed and have a moral responsibility to give back to our world. Our goal is to alleviate suffering & death, encourage organ donation, aid with disaster relief and be our brother's keeper. Our mission is to save the world and we would like you to be a part of our mission.
