

Country Music Headed To RSR Trip Radio

RadicalRed, 2018

RSR Trip Radio is proud to introduce that we are branching out to embrace other genres in the music industry. We are implementing a subsidiary station and bringing about a Renegade Revolution, featuring new, cutting edge, unsigned talent!

Watch in the next few weeks, there's a change coming with a blow it out, hard charging and diamond edged country & southern rock station that will make your momma cry! Be one of the first country, texas country, red dirt or southern rock bands to load your music and be played on air. We plan on tipping our hat to the old school but starting the revolution with the new and unknown!

Tell your musician friends that we are offering them a chance to get the exposure they deserve, all they have to do is sign up and load up!
